

LUXURY LIVING — EXCLUSIVE AMENITIES — GRANDEUR & MAGNIFICENCE

INSPIRATION

BLUEPRINT FOR FUTURE LIVING

The overall design flows seamlessly from exterior to interior with floor to ceiling glazing creating a rich continuity of materials, textures and finishes, with a distinctly modern sensibility. Both the building form and material palette are rooted in nature, with gently flowing lines emerging from the ground and natural materials expressed throughout.

SKYLINE

From an exclusive address on the southern coast of Cyprus, SkyTower offers a vantage point onto one of most cosmopolitan cities of the Eastern Mediterranean, with panoramic views over Limassol's sun drenched, sandy beaches. This prestigious new landmark echoes the curvature of Akrotiri Bay in its design, with subtle fluid lines that reach up to sapphire blue skies.

A man-made marvel to look at and look out from, designed by internationally renowned Architects UHA London, SkyTower represents a bold new vision for future living, and an eyecatching addition to the skyline of Limassol.

SkyTower offers owners and their guests the height of luxury living and recreation through a wealth of exquisite amenities including extensive outdoor and indoor pools and water bodies, gym, tennis court, within generous landscaped grounds and mature gardens. This natural setting surrounds and insulates SkyTower from its urban context at the heart of Limassol's highly popular tourist area, just steps away from blue flagged sandy beaches and endless entertainment opportunities.

Whilst many recent condominium developments in Limassol suffer the negative effects of noise pollution, due to the popularity of Limassol as a tourist destination, SkyTower's convenient location, close to the city centre yet set back from the busy coastal road, allows unprecedented peace and tranquillity.

DESIGN

CELEBRATING HI-RISE LIVING INSIDE OUT — OUTSIDE IN BOLD AND INSPIRING ARCHITECTURE

UHA London, the international architecture and design studio, led by Jonas Upton-Hansen and Ricardo Mateu, were commissioned by Prime Property to develop a new residential typology for an international clientele. With a combined history of more than 40 years of design, the team at UHA London specialise in high-rise residential development with significant projects across Europe, Asia and the Americas. Inspired by both the nature and geology of the island, the team looked to capture the essence of this ancient land and its natural environment whilst creating a very modern architectural language that fulfils and exceeds all the requirements of 21st Century living.

Designing from both inside out and outside in, ensured a seamless integration of interior and exterior spaces eminently suitable for such a benign sub-tropical climate, where much of the year is spent outdoors, and generous terraces extend living spaces to a seemingly endless horizon. The resulting design celebrates hi-rise living, with generously proportioned sequences of spaces, and flowing structural lines that anchor the building firmly into its natural garden landscape.

LANDSCAPE

INSPIRED BY NATURE LIGHTLY TOUCHING THE GROUND CREATING A NEW SKYLINE

CELEBRATING HI-RISE LIVING INSIDE OUT - OUTSIDE IN BOLD AND INSPIRING ARCHITECTURE

Cyprus is an island with fascinating geology and abundant in nature. The island was formed by the Troodos mountain range slowly rising from the sea, due to the collision of African and European tectonic plates, leaving largely intact rock formations with subsequent erosion exposing ancient lava formations. The natural environment ranges from the sun-kissed shores of the Mediterranean to the Troodos mountain range of the interior, culminating in the 1,952m Mount Olympus.

Forests of Pine, Cedar and Cypress trees inhabit the mountain slopes, and feature some of the oldest trees on earth, with some species reaching over 30m in height. The constantly changing elevation coupled with natural erosion often exposes the roots of these tall trees. These visible root networks clearly illustrate how such tall trees are anchored to the ground, and yet they appear delicate, organic and 'of their place.'

Lush landscaped grounds are designed by award winning London based landscape architects Gillespies. With over 50 years of experience, Gillespies have built a global reputation for consistently delivering places worldwide that have a high regard for the quality of their environment and acknowledge their physical and cultural context. Gillespies have been responsible for landscaping some of the most iconic and luxurious residential developments in London including One Hyde Park, Holland Park Villas and Prince of Wales Drive.

SETTING

A PLACE LIKE NO OTHER

IMMIGRATION BENEFITS

PERMANENT RESIDENCE PERMIT

Unique cyprus permanent residency for property buyers

- Lifelong validity
- For all family members inc. children and parents
- Possibility to own a business in Cyprus

The Cyprus Permanent Residence Program (PRP) grants the right to travel within the EU with less elaborate visa requirements and may be the first step towards a successful application for the Cyprus Investment Programme. We offer an "A to Z" service for nonEU citizens seeking residency in Cyprus by means of buying a property. To be granted a lifelong (permanent) residence permit in Cyprus, the applicant needs to purchase a new residential property or two new properties from the same property development company at a total price of 300 000 Euros excluding VAT. At the time of submission of the application, 200 000 Euros (excluding VAT) must be transferred in settlements of the property and the contract of sale must be registered at the Lands Office. The issuance of the Permanent Residence Permit takes approximately 2 months from the day of submission of all relevant documentation and covers all family members, including financial dependent children under 25 years old. A Cyprus Permanent Residence Permit allows the holder to stay in Cyprus all year round.
